# ALAYLI CONCEPT

Handcrafted Artistic Products

**Alaylı Concept** design team transforms the inspirations from nature into extraordinary and unique collections in the hands of talented master craftsmen who can use different materials together. The shapes, textures and details in the designs are made using traditional methods and traditional tools such as brass, casting and hand polishing. This production process ensures that each piece of art produced is unique and special due to the nature of handcraft. At the same time, the company has ensured the design integrity with stainless metals so that the products are usable and hygienic. **Alaylı Concept**, which set out with the belief that every design made will excite people, will continue its journey of seeking perfection with its astonishing design and craftsmanship quality...
